with notification to the board, or at the discretion of the president, by the board. The president will determine when a revision to an academic unit is sufficiently major to require approval by the board. Elimination or major revision of a unit at any level, if the unit employs tenured or tenure track faculty or delivers degree or certificate programs, will require a program review as specified in P10.06.010 and university regulation. [The existing policy is too cumbersome; research units, in particular, have been created and eliminated mainly due to federal funding decisions.]

- C. Faculty from more than one MAU may be affiliated with a unit, following agreement between the appropriate chancellors and the president as appropriate, as to the type of affiliation, accreditation requirements, and other contractual obligations.
- D. Approval of the board is required to create units as specified in this section and to eliminate or significantly modify the following University units:
